

## **Health, Safety, Environmental Protection and Social Responsibility Policy**

**Delta Energy Limited** is committed to protecting the health and safety of all our staff and of those potentially affected by its business, and to the preservation of the environment at all times.

**Delta Energy Limited** is also aware of its social responsibility to local communities in areas where it operates and is committed to working with local communities in an open and transparent manner.

### **Delta Energy is committed to:**

- providing a healthy, safe and secure place of work;
- protecting the environment at all times by eliminating any adverse impact of its operations;
- complying with all applicable legal requirements and other applicable industry standards; and
- positively contributing to the societies in which it operates.

### **Implementation**

In order to meet their commitments **Delta Energy will:**

- make personnel, whether employees or contractors, aware of their delegated HSE responsibilities and provide appropriate training to undertake these responsibilities;
- identify, evaluate and manage HSE risks and impacts arising from our business activities;
- apply best available industry practice when conducting operations;
- select competent contractors with regard to their HS&E capability and provide them with all necessary information , including definition on Delta Energy's requirements;
- provide an effective process to identify , assess and avoid impacts on communities and other stakeholders where we operate;
- engage with local communities in an open and transparent manner;
- set, monitor and report HSE performance through establishment of objectives and targets both internally and with contractors; such measurement of performance being reported to the board of directors; and
- conduct regular audits and reviews to meet this policy.

Signed on behalf of Delta Energy Limited:

Steve Edgley (CEO)

Don Ferguson (Operations Director)
